MY FRIEND FROM INDIA.

Excellent Presentation of This Play By the Danville Club.

"Our Friends From Danville" came in on the morning train yesterday and were the guests of Greensboro Dramatic Club, who showed in a measure their appreciation of the royal reception given them by their Danville friends when they paid a visit to their city. A reception was tendered the members of the Danville club yesterday afternoon by the Merchants and Manufacturers Club in their club rooms.

The performance last evening at the Academy of Music was heartily enjoyed by the large audience. It was well presented and deserved all of the many warm words of praise spoken of it. All of the members of the cast were perfectly easy in their parts and played like professionals. The play ran smoothly and was devoid of the usual number of interruptions and breaks that characterize the ordinary amateur performance.

Mr. Green P. Talbott, as "My Friend From India," was perfectly at home and by exceptionally good interpretation of his part completely won the audience. His was a difficult part and perfectly did he meet the different requirements of the character of "My Friend."

The bombastic Mr. Erastus Underholt, by E. H. Ellyson, is deserving of special mention. Exceedingly well did Mr. Ellyson portray the character of a rich Porkpucker anxious to get into society. Dr. H. E. Koons played well the part of a young blood about town. The parts of Jenkins, Tom Valentine and Rev. James Tweedles were admirably given.

Miss Lucy Neal, as the German maid, Tilly, played her part to perfection, representing well the inquisitive and impertinent house maid. Misses Lottie Pace and Sue Bethel, as the two daughters of the porkpucker, deserve all the good things said of them. They were natural and easy and as two dutiful daughters were perfection. Miss Alice Wemple, as the woman of society, well sustained her part. Miss Etta Anderson, in the part of Mrs. Beekman Street, was good.

Taken as a whole the play was far above the average and was one of the best and most enjoyable plays Mr. Blackburn has given to Greensboro. After the play the Greensboro Dramatic club gave a reception at the Benbow in honor of their visiting friends from Danville. We hope this is not the last visit we shall receive from our friends across the line; they will always receive a hearty welcome.

I Told You So.

The Lawn Party would not be until Friday night, May 13, in Mrs. Ballard's yard near depot. And still people keep after us to have it sooner, but give us time and you will see what the firemen can do with the assistance of the public at large. The people who have contributed cake will please have it ready to deliver by 4 o'clock Thursday evening, and cream by 12 o'clock Friday noon. All doing this will save themselves a lot of trouble and oblige us a great deal. Bear this in mind, and also the date—May 13.

Epworth League.

The literary meeting of West Market Street League was largely attended. After prayer and song Prof. C. L. Raper gave an interesting account of the Diamond Jubilee of Queen Victoria. He followed this with a description of Westminster Abbey and the Scottish Lakes. He vividly described the country and lakes of Scotland and their influence on poetry. Following Mr. Raper, Miss Cozart gave a reading from the Lady of the Lake. The whole exercises were highly enjoyed.

DEWEY ASKED TO SPARE SICK

In Return He is Told to Take a Mined Channel.

CAPEVERD FLEET AT MARTINIQUE

Admiral Montijo Killed—Austria is Neutral—Riots in Manila, Naples, China and Italy.

Cable to THE TELEGRAM.

Hong Kong, May 10—The priests and sisters of charity at the Cavite hospital formed a procession, each carrying a cross, and petitioned Admiral Dewey not to massacre the sick and wounded Spaniards. The priests and sisters thought that Dewey would murder all the prisoners he had captured. Admiral Dewey replied to the petition by saying the Americans would not do any harm to the invaders. The Spaniards thanked the Americans for this unexpected humanity. The petitioners repaid Dewey's kindness by informing him that the narrow channel was safe while the large channel was sown with torpedoes. Dewey made a thorough investigation and found that just the reverse was true. He exploded all the mines in the narrow channel.

RIOT IN NAPLES.

Rome, May 10—The rioting at Naples yesterday was widespread. Mobs of students armed with sticks and revolvers swept through the streets. The police repeatedly charged and in some instances dispersed the rioters. The rioting students overturned many street cars and attempted to build barricades out of them. The rioters frequently attacked the soldiers who fired upon them and killed many of the mob.

TRY SPANISH TACTICS.

Hong Kong, May 10—It is reported that the insurgents are massacring Spanish women and children on the outskirts of Manila. Admiral Dewey is unable to control them.

AT THE STRAITS.

Gibraltar, May 10—Several Spanish cruisers and boarding vessels are at the straits.

RIOTING IN MANILA.

It really seems that the approaching convention will prove a Manila for the fusionists.

Spaniards should find consolation in the thought that it was not quite a before-breakfast job.

Somehow Charlotte's share of military glory seems to be garnished with unpleasant incidents.

Thus far the Spanish gunner has not been instrumental in materially augmenting the pension list.

In the choice language of the ring Uncle Samuel seems to be equipped with a pretty formidable "reach."

In the several capitals of Europe the measure of the American Navy is just now undergoing a readjustment.

The Spanish army in Havana is between the insurgents and the deep sea—and the deep sea is pre-empted.

The captain of the Montgomery showed very clearly that fighting is not the sole accomplishment of American warships.

The trouble with our enemies is not that they do not know how to die but that they do not know how to teach the art to others.

Spain has once more demonstrated that the only way she can hit an American warship is to have it tied to a hitching post.

The Spanish soldiers in Havana are having a great deal of trouble in getting an after-dinner smoke—because they can not get the dinner.

Ohio is to establish a home for imbeciles. Her need has long been sore. This should come as a measure of relief to the department of state.

If the worst comes to the worst Mr. Marion Butler might volunteer in the commissary department. His pastry record should secure his admission.

A comparison of the pay of our soldiers and the pensions granted forces the conclusion that a dead soldier is much more valuable than a live one.

The governor of Manila has been ordered to die fighting. If his instructions had said proclaiming instead he would have at least died happy.

Those who have seats at the pie counter but wish to fight will have their jobs held for them until the war is over. So will those who are seeking places at the pie counter.

Three of the Lexington contingent of the Guilford Grays deserted, though Captain Gray had paid their transportation to this point. It is not reported that the trio were afraid of the examining surgeon.

Senor Polo pauses in his Canadian tour long enough to get the range of a Montreal reporter with his mouth and adds to his outstanding prophecies that the Spanish fleet will wipe out Sampson's squadron.

The hostility toward England that has been so marked in this country was always somewhat irrational and ungenerous. As victors in the conflicts with England Americans can afford to be generous. The old island has done us a good turn and our people will be slow to forget it.

Supply and demand alone regulate prices. When farmers grow more corn, wheat or cotton than can be readily consumed, the market for the over-produced crop is glutted, and the price goes down. When they grow less of any product than is needed, the price goes up.—Philadelphia Record.

Even a victorious war can not overpower the platitude habit.

When the administration comes to the final disposition of the Philippines there is going to be much talk and possibly some trouble. We shall not need them against Spain, but it will be just as well to issue hostile orders to the builders who have the Kentucky, Kearsarge and Alabama in hand. The sea-coast defenses also need not be abandoned just yet. Frenchmen are elbowing Americans off the sidewalks in Paris. They may undertake to elbow them off the Philippines before they get ready to leave; in which case there would be a scuffle. So let the powder mills grind away for a while yet.

ORDERED TO CHICAMAUGA.
North Carolina-Boys Will Go to The Front.

Last evening Governor Russell received a telegram from the Secretary of War informing him that as soon as the first regiment is completed and fully equipped it will be removed to Camp George H. Thomas, Chickamauga Park, Tenn. The information was also furnished that the regiment would be furnished with tents, uniforms, guns and other equipments at this point before removal to Chickamauga. The telegram stated in addition that the work of equipping should be hurried forward and that the second regiment would be rushed to the front immediately after the departure of the first.

The first regiment may not be able to get away from here for a week or more if the decision to equip Camp Grimes adhered to. Gen. Cowles says he does not think the troops can be equipped under a week. The military authorities here have no intimation as to when the equipments for the regiment will arrive.

The department of the regiment to Chickamauga now depends wholly upon the arrival of the equipments for the troops. It is presumed that the war department will rush them here without delay.

It seems to be assured that the North Carolina troops will be sent with the army of invasion to Cuba, and that the first North Carolina Regiment will be among the first of the state troops to go.—Morning Post.

Co-Operation With Insurgents.

Nassau, N. P., May 9—Lieut. Rowan who was sent to Cuba to arrange for the co-operation of the insurgents with the United States troops, arrived today, having come from Cuba in an open boat.

It is learned that he successfully accomplished his mission, having conferred with Generals Gomez and Garcia.

He will start tomorrow for Key West.

They Fell Dead.

"Yes," said the war crank to the eager but inoffensive crowd before the Telegram bulletins, "the history of naval warfare can show nothing comparable to the Manila victory. Every succeeding report shows more and more clearly that the American commander did Dewey plenty to the Spaniards." Some fell dead and some went away sorrowing.

To Work The Cable.

Hong Kong, May 9—When the United States despatch boat McCulloch sailed from here yesterday on the return to Manila, she took a telegraph operator who will work the cable connecting the Philippine capital with the outside world.

The cable, which was cut by Dewey, was cut fifteen miles from Manila, at the entrance of the Bay.

Both ends of the cable are buoyed.

Brooks—Do you know it is susceptible of proof that war promotes matrimony?

Rivers—It's likely enough. I know that matrimony often promotes war.—Exchange.

General News in a Nutshell.

Uneasy lies the head that wears a crown; yet some of the wearers of crowns are fairly well paid for their uneasiness. The income of the Emperor of Russia for one day is about \$25,000; that of the Sultan of Turkey, \$18,000; Emperor of Austria, \$5,000; Emperor of Germany \$3,000; King of Italy, \$6,500; Queen of England, \$6,500, and the King of Belgium \$6,500. The president of the United States receives about \$130 per day.

The earliest records of illustrated comic literature have been discovered by Brugsch Bey in a papyrus of the twenty-second dynasty recently found at Tonnah. The drawings are colored, and they represent animals performing curious antics. Cats and rats figure largely in the illustrations.

The Boston Transcript seems to be on very familiar terms with some one in authority, to whom the following item in a recent issue is apparently addressed: "We have all the moisture we need for the present. Now give us about seventy-six in the shade and witness the grand transformation scene."

Pawnbrokers in Frankfort and Paris have found it necessary to enlarge their premises to make room for the storage of bicycles. The Paris municipality has voted \$2,600 to convert one of the halls at the Mont de Piete into a bicycle storeroom.

French bacteriologists discovered that tuberculosis may be communicated to fishes, and that it proves fatal to them very quickly. The bacilli used in the experiments were derived from human beings, rabbits, hens and previously infected fish. Tuberculosis bacilli from fish, however, have very little effect when injected into rabbits and fowls, owing to the attenuation of the power of the germs in the colder blood of the fish.

An Attleboro, Mass., craftsman has made a bronze watch chain of metal taken from the Maine for President McKinley. This curio will hardly be needed by the president to make him "remember the Maine."

Additions to Spanish Navy.

London, May 9—A correspondent, writing from Cadiz, under date of May 5th, says the cruisers Emperor Carlos V., the Victoria and Alfonso VIII., and the torpedo boat destroyers Prosperina and Osada were then at San Fernando ready to escort auxiliary cruisers, formerly the Hamburg-American liners Normannia and Columbia. These two vessels were being armed with four breech-loading guns of 4.7 calibre.

It was thought the squadron would be ready for sea in ten days.

Buried in the Klondike.

Lima, O., May 8—Fred Rost, of this city, returned last night from the Klondike. Rost left here last fall and reached Pilella River in March. Being out of wood, Rost and his partners went to a mountain on Pilella River, and were cutting timber when an avalanche swept upon them burying them and 17 other miners who had claims near by.

Arthur Laladune was crushed to death. Ten others were killed. Rost was buried for ten hours and had three ribs and a leg broken. He thinks many were not found at all.

New Orleans Joins Schley.

Fort Monroe, Va., May 9—The cruiser New Orleans has joined Commodore Schley's squadron in Hampton Roads. All the officers are greatly pleased with the new warship.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with la grippe, and her case grew so serious that physicians at Crowden and Pana could do nothing for her. It seemed to develop into a fatal consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at C. E. Holton's drug store.

FRANK D. JONES,

Superintendent.

New York's Famous 13th.

New York, May 10.—The Thirteenth

Regiment of Brooklyn was disbanded

today, by order of Governor Black.

Only part of the regiment had gone

into camp, when ordered, and a ma-
jority of those in camp returned when

their Colonel was ordered to take

home those not intending to volunteer.

The reason for disbanding was dis-

obedience in not going into camp.

Those who remained faithful will be

attached to another regiment, and

when mustered out will form the nu-

cleus of a new regiment.

The Thirteenth has a fine record and

a magnificent armory.

A Dictatorship.

Hendaye, France, Near the Spanish

Frontier, May 8.—Advises which have

just been received from Madrid, by

mail, in order to escape the Spanish

censor, say the general opinion in

Madrid is that a military dictatorship

is coming, in order to contend against

the spreading of disturbances arising

from hunger, the defeat of the Spanish

fleet at Manila and the political plots

of various descriptions. It is added

that Marshal Martinez Campos, the

former captain general of Cuba, will

probably be the head of the dictator-

ship and he will be supported by a

cabinet composed in the main of mili-

tary men, as the last chance of saving

the dynasty.

A Big Stamped.

It is expected Friday, May 13th at

the Southern railway depot. All

aboard for Raleigh on the excursion.

Are you with us?

The True Remedy.

W. M. Repine, editor "Tiskila, Ill.,

"Chief," says: "We won't keep house

without Dr. King's New Discovery for

Consumption, coughs and colds. Ex-

perimented with many others, but ne-

ver got the true remedy until we used

Dr. King's New Discovery. No other

remedy can take its place in our home

as in it we have a certain and sure

cure for coughs, colds, whooping

cough, etc." It is idle to experiment

with other remedies, even if they are

urged on you as just as good as Dr.

King's New Discovery. They are not

as good, because this remedy has a

second of cures and besides is guaran-

teed. It never fails to satisfy. Trial

bottles free at C. E. Holton's drug

store.

So Tired! So Tired!

Chronic Dyspepsia!

For ten years I had been a severe

sufferer from chronic dyspepsia, which

was pronounced incurable. I was

completely run down, and in the sum-

mer season was not able to do any-

thing and spent a great part of the

time lying down. I could not touch

meat of any kind, or any solid food

whatever, as I could not digest it at

all and had to live on crackers and

light diet. I was very nervous, and

have severe nervous spells, and could

not get any natural sleep. I was so

restless, I suffered all the time from

chronic dysentery, which kept me

weakened down. That was my con-

dition when I determined as a last

resort to try Mrs. Joe Person's Rem-

edy. I had tried so many treatments

and so many patent medicines with-

out benefit that I had no faith in any-

thing and had almost made up my mind

not to try another thing, when Mrs. Per-

son came to my house last April and

induced me to try her Remedy. I

bought a dozen bottles. Felt no relief

whatever until I was on the fourth

bottle, when I knew I was getting bet-

ter. I became stronger, got so I could

sleep well and there was no necessity

for me to lie down in the day time. I

took twenty-two bottles before I stop-

ped. My digestion is now perfect, and

I can eat meat, vegetables, and any-

thing else I want, and as much as

I want. When I commenced the Rem-

edy I weighed 98 pounds, now I weigh

115 pounds. Dysentery perfectly cured,

and it is all owing to Mrs. Joe Per-

son's Remedy. It is everything

claimed for it.

SHIP'S RANGE IN ACTION.

**At Two Miles Tremendous Damage
Will Be Done.**

"The pictures in some of the burnt-

orange newspapers of battleships in

action are about as funny as the Ja-

panese idea of perspective," said a na-

val officer to a reporter of the Wash-

ington Star. "These pictures repre-

sent the opposing ships blazing away

at each other with thirteen-inch rifles

at a range of 100 feet, and the artists

certainly work up the thing to make it

look terrific enough, in all conscience.

One big shell delivered at such a range

would leave only the debris of the

struck ship floating on the surface of

the water.

"Modern ships of war are not de-

vised to get within any such range of

each other in action. The nearest that

any of the opposing ships in the great

naval battle on the Yalu got to each

other was a trifle under two miles, and

what one battleship can do to another

at that range is something beyond cal-

culation. The naval engagement of

the era is very largely a matter of man-

euvering—of presenting the smallest

possible target, the gun's of the enemy

forcing them to present their biggest

hull to the range-finders. When the

commander of a ship in the coming en-

gagements can contrive to get in his

work on the enemy's vessel while only

pointing with his nose in their direc-

tion—leaving them practically only a

racor's edge target—he is liable to

eat them up. But while there is still a

drill in the United States navy called

"repelling boarders," the drill is only

retained in the manual for the sake of

exercising the men, and the only board-

ing that will be done in coming fights

will be done by prize crews, taking

possession of beaten ships, after the

latter have struck their colors."

Deserted Capt. Gray.

Capt. R. P. Gray writes the Lexing-
ton Dispatch as follows:

It is my painful duty to report to
the people of Lexington, that, within
two days of the time of their arrival in
camp, R. E. Cecil, David Leonard and
W. J. Lookabill, all of Lexington, de-
serted. These are the only deserters
from my company, and so far as I
know, all of the other members of my
company are satisfied with their con-
ditions, and have a patriotic and ear-
nest desire to serve their country in its
present time of need, and to conduct
themselves in such a manner as to re-
flect honor upon their towns and State.
The fact that I personally paid for the
railway transportation of these men to
Greensboro, subsisted them there, and
the state transported them to Raleigh,
adds to the gravity of their offense.

Magistrate's Court.

Henry Norward, a white man, was
tried yesterday afternoon before
Squire Pritchett for fighting. He and
two colored boys, William Price and
Israel Morehead, became involved in
a dispute which led to blows. No se-
rious damage was done and judgment
was suspended upon payment of costs.
Squire Pritchett opened court again
this morning for the trial of John
Parker, colored, for larceny. It was
charged that Parker stole a gold
tipped pipe from John West. Evidence
pointed to his guilt and Parker was
bound over to court under a \$100 bond
which he gave.

tended and much interest was mani-
fested.

It was unanimously decided to ten-
der a reception complimentary to the
members of the Eagle Dramatic Club
on Thursday evening, May 19th, from
9 to 12.

The following committee of arrange-
ments was elected: F. N. Taylor, J. H.
West, J. R. McClamrock, J. G. Fowler
and W. L. Cranford.

The following officers were elected
for the ensuing year; President, W.
L. Cranford; Captain, F. N. Taylor;
First Lieutenant, R. C. Whittington;
Second Lieutenant, W. D. Marsh;
Secretary, Harry Pozolt; Treasurer,
J. L. Thacker.

Saturday's Excursion.

Wait until Saturday if you are
going to make the trip to Raleigh to
see our home boys and be on a train
managed by home folks. We have
had large experience in excursion man-
agement and know how to make every
body feel comfortable and happy. I

any package of articles or clothing or
money to any member of our company
at Raleigh. Our boys will probably
leave Raleigh next week and this will
be your last chance to see them. Go
and do not let anything keep you home.
If they are willing to leave home and
friends to protect the honor of our
country it is our duty to leave busi-
ness for a short time to lend all the
encouragement and good cheer in our
power.

Yours truly,

Gulford Grays Mustered In.

ered into the service of the United
States yesterday afternoon. The ex-
amining surgeons speak highly of the
personnel of the company. Captain
Gray's company was the first company

pany would be greatly pleased to be

dered to Cuba under the gallant Fitz.

We have had the cool wet spell in
May. We may now expect the sum-
mer season to begin shortly, and to
continue without interruption.

We do not think there is any reason
for dreading the warm weather. There
are a great many enjoyments peculiar
to the spring and summer, without
which life would be exceedingly mo-
notonous. Picnics will soon be on
hand.

By the way, have you secured a
BICYCLE? The roads will soon be
in fine condition for riding. Comfort,
pleasure and health demand that you
take advantage of the low prices
which we are now offering, and supply
yourself with a wheel. The Crawford
has made a record of which any wheel
might well be proud. The price is
exceedingly low.

refrigerator, or any other summer
specialties, do not forget that we are
